

Olroad 400 API CH-4, CF-4 & SJ

Multi-grade Diesel Engine Oil

Description:

Olroad 400 20w50 is high performance multi-grade diesel engine oil formulated with premium quality base stocks and advanced additive package satisfying requirements of the generation turbocharged diesel engines. The oil is recommended for highly power heavy duty naturally aspirated and turbo charged diesel engines, with direct or indirect fuel injection. The product is suitable for mixed fleet (including recent model) passenger cars, many light and heavy trucks and buses as well as for off highway equipment and stationary engines requiring API performance level CH-4/CG-4/CF-4 and SJ engine oil.

Application:

Olroad 400 20w50 is the most suitable diesel engine oil for the severe working applications, a real tough super high performance diesel engine oil for working under high temperature loads and extended oil drain intervals. Olroad 400 20W-50 is suitable for lubrication of naturally aspirated and turbocharged diesel engine.

Benefits:

- Very strong detergent and dispersant SHPD oil
- Excellent protection against bore polishing
- Extended oil drain interval
- High TBN value to neutralize acids
- Keeps engine components internally extremely clean
- Especially recommended for new generation turbo engines
- Available in 4, 20, and 205-liter plastic packs

Technical Specifications:

Product	SAE Grade	Viscosity (cSt) @ 40°C	Viscosity (cSt) @ 100°C	VI	Flash Point (COC) °C	Base Number (mgKOH/g)	Sulfated Ash (%)
